

Operations Manager – Retail

Description

WE ARE HIRING:

OPERATIONS MANAGER – RETAIL

DURBAN

We are recruiting for an Operations Manager to help them share the spirit of their growing company. You will be a fashion savvy leader with a strong focus on creating unforgettable customer experiences whilst fostering a supportive and fun work environment of our team based in Umhlanga, Durban.

Purpose of the Role

The position of Operations Manager consists of planning, directing, managing and coordinating the overall operations of the business. The position requires you to support the business owner and to ensure that the overall objectives, targets and customer service standards are met and exceeded.

Key Responsibilities

Stock Management:

- Manage staff to ensure that stock is accurately received & unpacked to merchandise and replenish the sales floor.
- Monitor and manage stock levels through defined processes (stock counts, stock takes, stock loss action plans etc.) to mitigate risks (stock loss) and ensure adequate stock on hand.
- Oversee the overall maintenance of the stockroom to meet housekeeping standards.
- Authorize write offs, breakages, recalls and returns.

Sales Growth & Profitability:

- Analyse sales & profitability reports in store to collaborate with management on required operational action plans, increase sales performance and monitor store expenditure.
- Review and keep abreast of in-store product performance to provide feedback to support centre and enhance sales.
- Identify and propose new opportunities to increase sales and brand awareness. This may include: marketing, competitor shopping, partnering/participating in local events and driving new accounts/memberships per targets (if applicable).
